

HS Practical Arts Learning Resource Plan

Week of May 11th - May 15th, 2020

Agriculture

Business Classes

FACS

Industrial Technology

If any student is in need of a Supervised Agricultural Experience visit (virtual or physical) Please contact Mr. Littlefield or Mr. Hinson to set-up a time to visit about your SAE!!

As we look at closing out our school we need to remember that record keeping is an important part of agricultural efficiency and success. Our videos this week are a review of how to use AET, our online record keeping system. Please watch the videos that are linked to this post and refer to the pf guides, as well you can refer to the AET help section for more video tips and guides on how to navigate AET. Then update your profile, journal and financial entries. When you have completed this please email Mr. Hinson or Mr. Littlefield so they can check your entries and get you entered into the incentive drawing.

[Basic AET Overview Video](#)

[Entering Income & Expenses \(pdf\)](#)

[Managing Capital Items \(pdf\)](#)

[Developing & Managing Breeding](#)

[SAEs \(pdf\)](#)

New learning opportunities for this week will be posted to Google Classroom for:

- Personal Finance
- Non Dual Credit
- Multimedia
- Graphic Design
- Computer Science Essentials
- Introduction to Business

Check Google Classroom, each FACS course has a distance learning assignment posted.

Woods1

Cabinetry: This could be a career choice. Cabinet makers are busy with not only new build homes, but with remodels. Watch this video with this gentleman showing you various cabinet differences, and the tools to create them. You have used many of the tools he uses, now watch for the order of them.

Woods2

Scrapwood bladeless fan challenge. Other than the purchase of the fan this fan is made of wood scraps. Pay attention to how this woodworker makes many fine removal cuts and not speeding up the process by making one large cut. The finished product is much cleaner when you slow down. Many times slower is faster in the overall project.

EbD

A highly needed career where you would most likely never get laid off because things are slow, and earn a good living with an Associates Degree. Biomedical repair technician may be that career. This career has some things with it that you may not think of yet. Companies that hire these technicians are most likely offering health benefits, and you will most likely always be working in air conditioning. But... remember this must be taken seriously, because you have people's lives in your hands with your repairs.
